CONTRACTOR JOB SHEET • CRAIG

Job Sheet

Contractor: **Craig**

Date: **Monday 6 July 2026** • 1 stop • full day

£2M Public Liability

DBS Checked

Photo on Completion

Pick up from Screwfix first

Collect these before you head to the job.

Blue Gript fixings (20mm) — for the TV brackets

Heavy-duty plasterboard fixing. Blue = 20mm, holds the weight of a wall-mounted TV. Grab a pack — you'll want a few per bracket.

Spare wall plugs & screws for the holders, hooks & mirrors

Bring a mix — some walls will be tile, some plasterboard, some masonry. Check on arrival and use the right fixing for each.

THE JOB

18 - Plot 52, Shipley Close, Arnold, Nottingham NG3 5TF

Customer: **Rebecca**

Phone: **07582 122855**

Full day booking

Customer supplies the items

1

Wall-mount 2 TVs

Fit both TV brackets to the wall, hang the TVs, level them and tidy the cables. Make sure each bracket is rock solid before the TV goes on.

⚠ Important — fixings

Use the **blue Gript fixings** on plasterboard walls. Find the studs, pipes and cables first with a detector. Test the bracket is solid before hanging the TV, and take a photo of each mount when it's done.

2

Mount 2 towel holders

Mark, level and fix both towel holders to the wall (Rebecca provides these). Fix solid so they hold the weight of wet towels.

Check

If fixing into tile, use a tile bit and the right plug — don't drill on a grout line. Check for pipes behind bathroom walls before drilling.

3

Mount 1 toilet roll holder

Mark, level and fix the toilet roll holder to the wall (Rebecca provides it). Set it at a comfortable height and fix solid.

4

Mount coat hooks

Fit the coat hooks where Rebecca wants them. Level, evenly spaced, fixed solid to take the weight of coats.

5

Mount towel hooks

Fit the towel hooks where Rebecca wants them. Level, evenly spaced, fixed solid.

6

Hang 2 mirrors

Hang both mirrors (Rebecca provides these), level and secure. Take your time to get them straight and fixed solid.

⚠ Important

Mirrors are heavy and can be awkward — use fixings rated for the weight and the wall type. Two people if they're large. Confirm exact positions with Rebecca before you drill — hard to move once it's up.

Before you set off

Stop at Screwfix and pick up the blue Griplt fixings (and spare plugs/screws) first. Ring Rebecca to make sure she's in before you head over. All the items — TVs, holders, hooks and mirrors — are supplied by the customer; you're bringing the fixings and tools.

Photos to take

Each TV mounted & level · all towel and toilet roll holders up · coat hooks & towel hooks fitted · both mirrors hung straight
