HOW IT WORKS

Three channels feed your pipeline

Your work comes from multiple sources - and it compounds over time.

01

New Customer Leads

Google Ads, SEO, referrals & website bookings drive fresh customers to your zone.

02

Repeat Customers

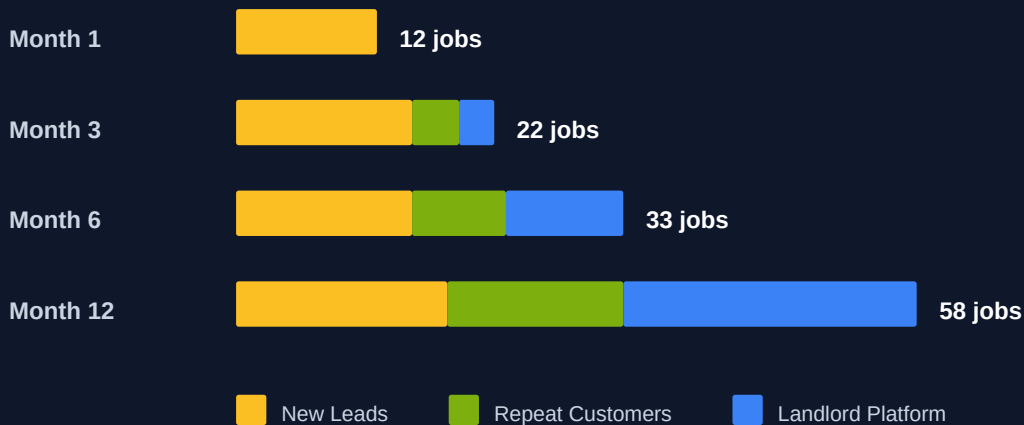

Every happy customer comes back. No acquisition cost. They ask for you by name.

03

Landlord Platform

Landlords onboard once. Tenant maintenance flows via AI triage. 1 landlord, 3 properties = 15-45 jobs/year.

Your pipeline compounds every month

"Your pipeline compounds. Month 1 might be 12 jobs.

By month 6 you could be looking at 30+."

From tradesperson to business owner

A clear path off the tools. At your pace.

01 Prove It

Month 1-3

- You on the tools, supported by your team
- 10-15 jobs per week sent to your zone
- Learn the system, build the rhythm
- All quoting, booking & payments handled by us
- Paid within 48 hours of each completed job

02 Build The Team

Month 3-6

- Start putting your team on simpler jobs
- You take the multi-skill & high-value work
- Volume grows to 15-20 jobs per week
- Your income grows as your team delivers more

03 Come Off The Tools

Month 6-12

- Your team of 3-4 handling 20-25 jobs per week
- You manage quality, diagnostics & your people
- Only pick up tools for premium or complex jobs
- Income decouples from your personal hours

04 Scale

Month 12+

- Potential second zone or territory
- Running a proper operation
- Income grows with your team, not your hours
- Founding partner benefits as the network grows

The market gap is real

Fantastic Services - the UK's biggest home services company with 530 franchisees and a £35M platform - tried handyman and essentially gave up. Their handyman entity is dormant on Companies House. Why? Their system was built for cleaning. **Ours is built specifically for multi-skilled tradespeople.**

Our technology advantage
