

COMPENSATION PROPOSAL

Ben — Senior VA to Ops Manager

A three-phase pay & progression plan

HANDY SERVICES

Prepared 16 April 2026

Private & confidential

Hi Ben,

Your conversion work over the last month has moved the business forward and we want that reflected in a cleaner, more rewarding compensation structure. This proposal replaces the current *£3 per quote sent + acceptance bracket* model with a simple base + profit-share formula, and gives you a defined path toward a full Ops Manager role.

Read it, sleep on it, and let's talk.

The Formula (simple)

Weekly pay = £150 base

+ 10% of labour profit

+ monthly milestone bonus (see phases)

Labour profit = Revenue – Materials (with markup) – Contractor cost

Labour profit is the money left on a job after we pay the contractor and cover materials. You earn 10% of it — the harder you work the pipeline, the more you take home. No cap.

Three-Phase Progression

● Phase 1 — Senior VA / Ops Coordinator

Starts now · backdated to 8 Apr 2026

Your job: convert leads into booked jobs (same scope as today).

MONTH	LABOUR PROFIT	BASE	YOUR 10%	BONUS	TOTAL
